

NO MOUNTAIN HIGH ENOUGH, NO VALLEY LOW ENOUGH...TO STOP GOD'S WORD!

Dear friend,

Recently, I had the privilege to share my testimony, which was beamed into Muslim nations via satellite. At the end, the phone lines were ringing off the hook! I was thrilled to hear we had reached so many thirsty hearts, people sincerely wanting to learn more about God. What was most exciting is that we reached into many closed countries, like Afghanistan.

One caller literally broke my heart.

“What about us?” he asked. “In Afghanistan, we are now in the same situation as you were in under communist Bulgaria. We are being persecuted by the Taliban and live every day in fear. How can you help us?”

I have a soft spot for Afghanistan. I have been there when there was more freedom and have memories of so many lovely people.

But today, Christians in Afghanistan face one of the most extreme persecutions of all countries. Since the Taliban retook power in 2021, they have been working hard to eradicate Christianity. Almost all Christians are converts from Islam. If discovered, they face death.

Christians, and the few house churches that once existed have been forced underground. With no access to Christian fellowship, they are isolated and many struggle alone in fear. Without Bibles it is difficult to strengthen their faith.

Smuggling Bibles into closed countries like Afghanistan is extremely dangerous. Not only for our workers but also for the believers living there.

Today, we have a way of bringing God's Word safely, and directly into people's front rooms and kitchens without the risk of jail or death.

BROADCASTING HOPE ACROSS MOUNTAINS OF FEAR AND UNBELIEF

Through ICNET satellite broadcasts, **there is no mountain high enough, or valley low enough to stop God's Word!**

These Christian satellite programs are reaching millions of listeners daily. On just one (of three) ICNET channels, **more than 1.5 million daily listeners are tuning in.**

Here is another caller from Afghanistan:

“My family are all secret Christians. We don't have any Bibles or churches. We watch ICNET every day and learn so much. Thank you so much for helping us with your great programs. We pray every night for Jesus to bless you!” Maryam

Many have come to know Jesus through these Christian broadcasts, like this caller in Iran:

“Hello. I am so excited about your new channel, ICNET Worship. I turn my TV on every morning and all day long spiritual songs play in my house. For five years, my son resisted believing in Jesus, but last week, he said, “Mom, I want to become a Christian!” We prayed and he gave his heart to Jesus! It was all because our house was filled with beautiful worship music! Thank you!” Karaj

Satellite TV is successfully reaching Muslims wherever Farsi and Dari languages are spoken in countries such as Iran, Afghanistan, Turkey and Iraq.

Anyone with a simple satellite dish, even in remote villages, can now tune in and watch Christian broadcasts!

Please give today! Your gift will not only enable Muslims to receive the saving knowledge of Jesus Christ – but you are also building HOPE and giving encouragement to persecuted Christians in closed Muslim countries.

These programs are vital, especially for new converts, to grow and stay strong in the Lord. Countless lonely Christians with no access to Christian fellowship are being strengthened in their faith.

It is not easy to be isolated and alone.

Together In His Ministry,

P.S. Remember – **God can use any gift, no matter the size, to change lives.** You are an important and integral part of this ministry in bringing Christ's hope of salvation to Farsi and Dari-speaking people in Muslim nations!
